PRESENTS

Gardening for Wildlife

WEDNESDAY OCTOBER 15, 2014 7:00PM

Join us at The Birdfeeder

7150 N Main St, Clarkston

Want to learn more about how to attract wildlife to your garden? The **Organization for Bat Conservation** (<http://www.batconservation.org/>) will educate us on how to incorporate features into our gardens that support wildlife. Learn about:

- meeting the needs of native wildlife in your garden by adding plants and other features such as wildlife houses and bird baths.
- the connection between plants and backyard wildlife.
- Michigan's native wildflowers that will make beautiful additions to any garden.

Meet live native animals such as the Big Brown Bat, an owl, and a flying squirrel!

Doors open at 6:30 pm, and the presentation starts at 7:00. The public is welcome and encouraged to attend this free event (donations to support future speakers always welcome)! Door prizes and plenty of great shopping at The Birdfeeder also await you!
