# How Tracking Phenology Can Benefit Your Everyday Life

*A Nature's Notebook Webinar (Pre-Recorded on 2/11/14)*

*Wednesday, March 2, 2016*

*Doors Open @ 7:00 PM, 7:30 to 9:00PM Webinar and Q&A*

*St Daniel's Church (7010 Valley Park Dr, Clarkston)*

“People have used phenology for thousands of years to guide their actions, from knowing when to hunt, plant, and harvest, to deciding when to watch for pests. These seasonal events can be equally useful to us in our everyday lives. Learn how phenology, the study of life cycle events in plants and animals, can benefit you in many ways - from helping you learn about the natural world to honing your observation skills.”

The public is welcome and encouraged to join us for this **free** North Oakland Wild Ones event. Donations are always welcome to help bring future educational opportunities!

*Webinar created by the USA National Phenology Network (<https://www.usanpn.org/>).*
